Here are the actions we are taking

Keeping People Safe

We train our employees on health and safety standards.
We screen the health of our employees and customers.

Securing a Healthy Environment

We are deep cleaning and disinfecting our business including high-touch surfaces.
We are taking measures to maintain social distancing and encouraging clients to use our telecommunications, email, and video conferencing technologies when possible.

Creating a Flexible Workplace

We are using video conferencing and telephones for meetings and events when possible. We will accommodate employees who become sick or have a sick family member.
